In which Tribune Want Ads are criticized

Mr. Arthur J. Smith, 5049 N. Spaulding Street, ordered this Tribune Want Ad for three days, starting January 25:

FOR SALE-BY OWNER.

On January 26 he telephoned The Tribune, and asked for the testimonial department. Here is what

"Advertising in The Tribune is the surest way I know of being pestered by a lot of people who want to buy. I ordered my Want Ad for three days, Sunday, Monday and Tuesday. People started calling upon me early Sunday morning, and the third party that called accepted my terms. The contract was signed, and a larger cash payment than I required in the ad was paid. I cancelled my ad Sunday afternoon, but still people called. I put a sign outside to announce that the place was sold, but still they came in. And they are still coming today. I wish I could turn off the stream of answers your Want Ads bring."

Mr. Smith's complaint is no doubt unusual, but the fact remains that he received a large number of answers to his Tribune Want Ad, and that he found prompt success in selling. Tribune readers respond promptly to offers, and consistent use of a well worded, thoroughly descriptive Tribune Want Ad will bring this response to your door, making selling posts.

The policies provide for payment of life insurance to employes in amounts from \$1,000 to \$3,000, according to sailaries, and for \$1,000 additional in each artes, and for \$1,000 additional in each case of accidental death.

BY JOHN HERRICK.

China has crowded into the fourteen years since 1911 the spasms of
revolution and the disruptions of growing democracy which the western
world has suffered for the past fouror five hundred years.

So give China time to settle her own
problems without foreign interference,
President P. W. Kuo of the Southeastern university of Nanking pleaded
yesterday at Mandel hall. His was the
inrst beture of the institute of politics
of the Norman Wait Harris foundation
at the University of Chicago.

Not in Russian-spread communism.

Kuo concluded. That is suppression,
Bolshevism and communism are
against the psychology and tradition
of the Chinese people, he declared.

Today China, once the land of isolation and mystery, has telegraph wires
all over the country, railroads, thousands of factories, more than 6,000,000
children and young people in schools,
motor busses, plans for long distance
telephone and air service, a bank run
by women only, 12,900 miles of good
roads, and a better roads association
of 100,000 members.

"One thing is certain," President
Kuo concluded.

NEW YORK.—Probably 300 lives— some estimates are as high as 500— were lost in an unprecedented fire hor-ror at the North German Lloyd docks at Hoboken. Many of the unfortunates were drowned and others were burned to death. The fire destroyed three large steamships, the Saale, the Bremen, and the Main. The Kaiser Wilhelm der Grosse was damaged. More than a thousand people were struggling in the water at one time. The fire started in a great pile of cotton on the pier and was swept by a high wind to the liners tied at the wharf. Thousands who lined the sides of North river saw men and women jump to their deaths in the water in their efforts to escape the flames. Fifty Christian Endeavorers perished on the Saale, according to Purser Brummer. The property loss is at east \$10,000,000.

Do you feel sluggish, listless, lacking in vitality and "pep"? When you wake do you have to drag yourself out of bed? Do you suffer from indulgences at the table? Do you sometimes feel depressed, melancholy, blue? If you do the chances are 100 to 1 you are suffering from Faulty Elimination. Correct this and watch your ills disappear and your troubles vanish.

Rid Yourself of Poisons That Slow You Up and Make You Old Before Your Time!

For years many abuse their internal systems—overload their stomachs with rich food, take but little exercise and then expect to keep normal. It cannot be done unless the internal tract is kept clean and unobstructed. Otherwise the food waste accumulates and breeds deadly poisons that seep through the system, duling the brain, tiring the muscles and playing havoc with the nervous system.

The Veronica Treatment corrects this. There is no medicine to take just a few glasses daily of remarkable water from the famous springs in California. Unlike many mineral waters, Veronica comes to you just as it comes from the springs. Nothing is added, nothing

Veronica helps restore the organs to normal functioning, gently urging Nature but not forcing her. It acts as a tonic, too, for it contains nine of the twelve constitutional ingredients required by the human system.

Start the Veronica Treatment today if you want to feel again the pulsing, vibrant energy and ambition that come with perfect health.

Be Careful at Crossings

Transportation by railroad, now in its centennial, has developed in notable ways. The century has witnessed, as everyone knows, a phenomenal growth of traffic and a marvelous improvement of ervice. One development not so well known— lthough we of the railroads regard it as extremely mportant-is the greatly increased safety of rail-

The railroads are becoming safer constantly for those who work on them and those who ride their trains. Reports of railway accidents were first compiled on a national basis in 1888. In that year 115 passengers and 2,070 employes were killed. In 1924, 149 passengers and 1,533 employes were killed. This is a reduction of 53 per cent in passengers. senger fatalities and 26 per cent in employe fatalities, notwithstanding the fact that since 1888 railway passenger traffic has more than trebled, railway freight traffic has increased six times, and he number of railway employes has grown from about 700,000 to nearly 2,000,000.

Accidents at highway grade crossings, which are not included in the foregoing figures, have come in recent years to be the most prolific cause of fatalities on the railroads. The growing use of automobiles on the highways is the chief cause of this. However, in 1917 there were twenty-two fatalities in automobile accidents at grade crossings for every 100,000 automobiles in use, while in 1924 there were only ten for every 100,000 automobiles in use. But despite this apparent progress in prevention of grade-crossing accidents, the total loss of life in such accidents continues at an appalling rate. In 1890, the earliest year grade-crossing accidents were reported, the number of persons killed in such accidents was 402. In 1924, thirty-four years later, it was 2,149, an increase of nearly 435 per cent.

There are approximately 245,000 highway grade crossings on the principal railroads of the country. Some of these are being eliminated, but to do away with them all through the construction of subways and the expenditure of approximately twenty billion dollars, which is more than twenty times the total amount spent on all the highways of the country

The railroads have been endeavoring for years to prevent accidents at grade crossings. Most of the heavily traveled crossings are now guarded by lagmen, gates, bells, wig-wag signals or other protection. When new facilities are laid out, the safety of crossings is always considered. All crossings are plainly indicated. Enginemen, trainment and all other employes are required to exercise the greatest caution possible. But the railroads alone annot prevent crossing accidents. Those who cross railway tracks must be cautious for their own safety. It is within their power to protect themselves at all crossings. Without their cooperation the efforts of the railroads are wasted.

The railroads have taken the leadership in the fort to save lives at grade crossings. During the ummer months of the year, when travel on the ighways is greatest, they are appealing to motorits and others to use more caution than ever in rossing railway tracks. Their campaign deserves

\$100inCASH PRIZES

for the Best Crabmeat Recipes submitted this month

All ready for the new contest, starting now and closing at midnight, the last day of this month! We offer another \$100 in cash prizes for the best Crabmeat Recipes received by us this month.

The prize winners of last month's contest will be announced in the Tribune next week. Last month's contest brought us some very fine recipes. But we know there are any number of other delightful ways of preparing and serving this healthful, delicious and economical deep sea food. Bring on your crabmeat recipes—test your skill and try for the cash prizes!

The above list of ten prizes will be repeated every month up to and including July. Prize winners for any month can compete for prizes in other months by sending in new recipes.

Rules of the Contest:—

The contest is open to everyone—men, women and children. It doesn't matter where you live. Contestants may submit as many recipes as they wish, but all recipes must be plainly and neatly written on one side of the sheet only. No one is required to buy BLUE FLAG Fancy Crabmeat in order to participate in this contest. All recipes submitted for this month's contest must reach us during this month. Be sure your name and address is plainly written or printed on each recipe you submit.

Mail your recipes direct to nearest office of MESSCHER, SANBORN & HOLMES, Inc. Announcement of Prize Winners for each month will appear in the Chicago Tribune as soon after the close of the month as decisions can be made. A domestic science authority not connected with the BLUE FLAG organization will act as judge, thus insuring absolute fairness. In the event of a tie for any prize offered, a prize identical with that tied for will be awarded to each tying contestant.

We Have No Fight with The Saturday Evening Post

A statement from Liberty to avoid a false impression

SOME people, we have been told, may gain the idea that Liberty's policy, in soliciting advertising, is to combat The Saturday Evening Post.

Now in your interest and in ours, let us present the facts.

We respect The Saturday Evening Post. And we envy its great earnings. We envy the tremendous advertising volume that it carries. For we, like the Curtis Publishing Company, are in the publishing business to make money.

So when we tell you that the advertising columns of Liberty are not too burdened with competitive advertising for yours to gain a universal reading, we do not discount the Curtis publication.

Frankly, we'd be delighted to carry a volume as great as the Post. And that we do not is not because Liberty lacks merit, but because Liberty is yet young in its field.

We do not claim that Liberty surpasses The Saturday Evening Post in its field. But we hold the Post's field is different from ours. Liberty is definitely edited for women as well as for men.

So when we say that, in the weekly field, Liberty "Meets the Wife, Too," we attack no one. For that is but the statement of a fact.

When we say that Liberty's make-up plan is the only one in the weekly field that guarantees "full position" to every advertisement, we are merely stating another fact; not attacking any publication.

When we prove that inquiry costs of leading general national advertisers have been cut as much as 40 per cent in Liberty, below what others cost, we do not shoot at any particular publication.

Thus, in fairness, we must deny following a policy that's combative.

The story we tell advertisers takes no other publication into count. We present Liberty on its merits. Merits that great advertisers who use Liberty's columns, have found out.

Isn't it fair, then, to ask you to discount statements which may be made, that Liberty is taking undue advantage of its unique position in the weekly field?

JULY Welte-Mignon* Reproducing Records For KIMBALL Reproducing Pianos And All Welte-Mignon* Actions

THE July Bulletin appropriately contains a most inter-esting group of patriotic selections. The featured artist is Vee Lawnhurst, a young American pianist who has won notable success by her interpretations of popular music. There is also a timeliness in the light vein of the classical numbers contributed by George Liebling and Richard Singer and others shown in the list.

This is not an "aid to hearing," not an appliance to be worn in the ear, or on the person. It is an electrical treatment for deafness and head noises, the great value of which has been successfully demonstrated and thoroughly proved in practical application.

In this treatment we employ a well established principle—that the sense of hearing can be restored, or developed, only by the application of sound wave vibrations to the auditory organism. This principle is recognized in medical history and is endorsed by the highest modern authorities in this branch of science.

This sound wave vibratory massage is so perfectly under the control of the operator that the sound waves can instantly be forced into resonance with the hearing organism of the patient. This is proved quickly and conclusively by the fact that with this instrument we can cause even those who are born deaf, to hear both voice and music. If the delicate bones and muscles of the middle ear have become rigid, or the functioning of the middle ear is interfered with, this sound wave vibratory massage tends to loosen the rigidity, to strengthen the muscles, and induce proper blood circulation to return to these parts, aiding nature in the restoration of a healthy and functioning condition.

If the arm is broken and carried in a aling for weeks, when the sling is removed, the arm is useless. Its usefulness is restored by massage and exercise. In the treatment of impaired hearing, we apply the same principle to the ear, introducing a vibratory massage and exercise which induce normality.

Your increased perception of sound is apparent to you under successive treatments, and your hearing is finally restored to a state of practical usefulness except in certain extreme cases.

RESULTS GUARANTEED When we accept you for freatment we give you a written guarantee that we will restore your hearing to a state of prac-tical usefulness, or refund your money,

ner is the purgatory of motherhood," according to Assistant Surgeon General W. C. Rucker and Surgeon C. C. Pierce of the United States Public Health Service, ment to the Public Health Reports.

From 12 to 20 out of every 100 babies born in the United States die during the first year, and the majority of these deaths occur during warm weather.

The principal contributing causes are given as improper feeding and intestinal disorders. Many valuable suggestions are made for proper feeding, sanitation and general care of children in summer.

The mother should nurse the child for the first year if possible; if not, modified milk is the best substitute. Keep baby cool during hot weather, especially by proper clothing and frequent bathing in tepid water. Give plenty of boiled water, Keep slies away from baby and all utensils used in preparing its food. Never consider any disturb-

LONDON, June 30.—(P)—Suits in subdued rainbow hues, backless waist-coats and pale gray or fawn colored derbies are among the hot weather novelties for men in the brighter clothes movement. A new Irish tweed, so lightly spun that it is nearly transparent, comes in dust color and also what is called French gray, with a thin stripe of pale blue and green. This material is much in demand for the flappy "elephant leg" trousers now affected by young men.

The backless waistcoat is double breasted and is held in place by braces across the back. It is worn with an unlined loosely fitting jacket.

For shirts "ice colored" silk is the latest. The material is exceptionally thin, of a bluish gray, and expensive.

Photographs Have Ways of Leading Men Quickly to the Altar BY DORIS BLAKE.

Is a man's heart in his eyes, some times, when he falls in love with a girl's photograph? Is he taking a bigger risk in falling

for a girl's picture than in falling for an original in human form? There is no doubt that photographs have frequently drawn men to the altar. It is said that Cupid is never in a more impish mood than when he causes a male heart to flutter over a pretty picture.

I know one remarkably happy couple whose courtship started with a pho tograph. "This is the girl for me," the man said, sighting a girl's photo for the first time in a friend's house. An introduction was arranged and in less than six months the two were married. The photograph was not one that would be considered in a beauty contest. It was just one of those faces that might be labeled, "Guaran-teed to Wear Well." It is still wearing first place in Bill-ee's heart after four teen years.

A relative of mine tells of an old school pal of her husband's coming to visit them. He lifted a photograph from the mantel and remarked: "She looks just like the girl who jilted me." The original of it was a neighbor. She see me quite regularly, but he never asks me to go to a show. It isn't that evening. The man was interested immediately. He escorted her home. asked her to go motoring with him the following Sunday, and five weeks later they went to Europe on a honeymoo The story of the girl who looked like

It may have been the Rosa Raisa debut or the Ravinia anniversary or the combination of the two, but the "Aida" performance last night turned out the pilgrims in squadrons and droves, a capacity crowd of seat holders and nearly as many more standees, each with a pair of well smitten and resonating palms. Wherefore it seemed evident that Ravinia had taken a new star into a company that contains many stars.

If it had not been for such a friendly attitude on the part of the audience.

First (Closed) Mortgage 61/2% Sinking Fund Gold Bonds

(Total Authorized Issue, \$800,000)

Interest payable April 1st and October 1st. Coupon bonds in denominations of \$1,000, \$500 and \$100, Registerable as to principal only. Callable as a whole or in part on any interest date upon thirty days' notice at 103 and accrued interest. Principal and semi-annual interest payable at First Wisconsin Trust Co., Milwaukee, Wis., Trustee.

Interest Payable Without Deduction for Normal Federal Income Tax not to Exceed 2% FIRST WISCONSIN TRUST CO., MILWAUKEE, TRUSTEE

PROPERTY: The Hotel Racine will be the only modern first-class hotel in the city of Racine, the second largest city in the state of Wisconsin. The building will be located in the heart of the central business district at the northeast corner of Main and Sixth Streets, extending through to Lake Avenue. It will face Monument Square on the west and Lake Michigan on the east. It will be of steel and brick construction, containing 235 rooms, a banquet room, a large restaurant, and high-grade shops, stores and offices.

SECURITY: These bonds are the direct obligation of the Racine Hotel Company and will be secured, in the opinion of counsel, by a direct closed first mortgage on all the property of the Company, consisting of the land in fee, and the building to be erected thereon, together with furniture and equipment. The total value of the property upon completion will be approximately \$1,650,000, against which there will be outstanding a total first mortgage indebtedness of \$750,000 represented by these bonds. The total first mortgage debt is therefore less than 46% of the value of the completed property. A surety bond of a responsible insurance company guaranteeing completion of the building by the contractor in accordance with plans and specifications, has been deposited with the Trustee.

EARNINGS: The estimated earnings available for interest are over three times the maximum annual interest charges on this bond issue and approximately twice the combined maximum sinking fund and interest requirements.

SINKING FUND: The mortgage will provide for the deposit with the Trustee of a sinking fund, in monthly payments beginning April 1, 1928, which, it is estimated, will retire over half of this loan by maturity.

Price: 100 and accrued interest to yield 61/2%

On the Famous INDIAN RIVER.

Note the proximity of Fort Pierce Farms and the proposed town of Indrio to the famous Indian River. Along this sheltered strip of sea water, which lies between the Florida mainland and the Atlantic Ocean, is the finest citrus producing land in all Florida. Port Pierce Farms comprise the very cream of this fertile Indian River land. Then note the relationship of Fort Pierce Farms to those places in Florida which everybody knows—Palm Beach, Miami, Tampa, Orlando, Daytona and Jacksonville. All are within easy motoring distance.

NCE the rich man's playground. Now the poor man's paradise. That's Florida!

On Fort Pierce Farms you can gain a luxurious living from a few acres of inexpensive land. A trifling investment will make you rich in comfort, rich in health and eventually rich in money.

Even if you can't come immediately, buy NOW on Fort Pierce Farms against future advances. This land should soon treble in value. If you wish you can have your property cultivated at actual cost, plus a small commission. Thus it will yield handsome returns without effort or worry on your part.

You can live in your shirt sleeves the year 'round on Fort Pierce Farms. Its climate is always delightful; 79.9° is the average annual temperature. Here you can enjoy surf bathing in midwinter, or go fishing, hunting or motoring. The great outdoors invites you all the year.

Fort Pierce Farms adjoin the proposed town of Indrio, 60 miles north of Palm Beach on the Dixie Highway. Indrio is soon to become the most beautiful of all Florida's resorts. Parks, golf courses and palm shaded drives are even now being laid out.

EnjoyaYearlyIncome of \$5,000 to \$10,000!

The world's finest and costliest citrus fruits are grown on Fort Pierce Farms and adjoining property. Enormous crops of prize vegetables are also grown here and shipped to Northern markets at fancy prices.

The possibilities for profit on Fort Pierce Farms are almost unbelievable to Northern farmers. \$5,000 a year from 20 acres—\$10,000 from 40 acres—these are typical examples. Our illustrated book, which the coupon brings FREE, proves that many owners of land on Fort Pierce Farms are now making as much and more! Some of them were business men, with no farming knowledge whatever.

On Fort Pierce Farms there is no short growing season—no weather uncertainties to con-tend with. Florida farmers raise bumper crops with a fraction of the effort required in the North. Living expenses are very moderate; taxes exceedingly low. Confiscatory state income and inheritance levies are prohibited forever by constitutional amendment.

Values are Rocketing Buy NOW at Less than Worth

Florida property values are rocketing, as you know. Those who buy NOW on Fort Pierce Farms should soon see their land soar in

Based on what this land will produce, it is worth two or three times what we ask. Ex-perienced judges of Florida property believe it will shortly treble in value.

Why do we offer it at less than its worth? Simply to attract land users to Fort Pierce Farms. Once the Northern farmer and salaried man begins to comprehend the opportunities which await him here, there will be a rush of settlers that will send prices sky high.

These are the people we want on Fort Pierce Farms. We want to colonize this property-not exploit it. Hence we have set a price so low that most anyone who seriously seeks independence can now attain it.

In justice to ourselves, the present low intro-ductory price can't be continued indefinitely. An increase of at least 331/3% may be announced almost any day. Protect yourself against it—buy NOW on easy terms.

Central Indiana Power Company

(Controlled by Mr. Samuel Insull and associates, The United Gas Improvement Company, the Middle West Utilities Company and the Midland Utilities Company through ownership of the majority of the common stock of the parent company, the American Public Utilities Company.)

Three-Year 6% Collateral Gold Notes, Series A Due June 1, 1928

Dated June 1, 1985. Interest payable June 1 and December 1, at the office of Halsey, Stuart & Co., Inc., in Chicago or New York, without deduction for Federal Income Taxes now or hereafter deductible at the source, not in excess of s%. Coupon Notes in denominations of \$1000, \$500 and \$100. Redeemable at any time on thirty days' published notice at 100 and accrued interest.

For detailed information regarding these Notes, attention is directed to a letter of Mr. Martin J. Insull, President of the Company, from which the following is summarized:

Territory Served: The Company operates through absidiaries in Indianapolis and in central and northern Indiana. It owns all the outstanding bonds and the present outstanding capital stock (except \$1,764,000 principal amount of bonds and directors' qualifying shares of stock) of four subsidiary companies serving with one or more classes of public utility service, 165 cities and towns with an estimated population in excess of 550,000. Practically 80% of the combined operating revenue of subsidaries is derived from the sale of electricity. The Company also owns all the outstanding stock (except directors' qualifying shares) of the Indiana Electric Corporation, which owns a new super-power electric generating plant on the Wabash River with an installed electrical equipment of 40,000 k. w. capacity (now being increased to 60,000 k. w.).

Security: These Notes, in the opinion of counsel, will constitute a direct obligation of the Company and will be secured by pledge of \$4,125,500 principal amount of the Company's First Mortgage Collateral and Refunding Gold Bonds, or in lieu of all or any part thereof, an equal principal amount of the First Mortgage Gold Bonds of

the Indiana Electric Corporation. As additional security there will also be pledged an aggregate par value of stock of the subsidiaries or associated company of not less than \$2,375,000, except, pending pledge of such collateral, the Company may deposit in lieu thereof cash equal to the face amount of Notes so issued.

Earnings: Although operation of the Indiana-Electric Corporation properties has only recently begun and but little benefit therefore derived from the very large investment in that company's generating station and extensive transmission lines, gross and net earnings before depreciation, for the twelve months ended May 31, 1925, were \$7,381,201.52 and \$2,533,234.85 respectively, as compared with actual interest charges on consolidated funded debt paid and accrued during that period of \$2,711,165. 09. Based on new business contracted for or already connected it is estimated that gross and net earnings before depreciation for the calendar year 1925 will be \$8,251,087.18 and \$3,205,680.30 respectively.

The annual interest on the consolidated funded debt to be presently outstanding, including this issue, requires \$2,012,526.

61 Broadway, New York

THE J. G. WHITE MANAGEMENT CORPORATION Federal Reserve Bank Building 85 Liberty Street, New York MANAGERS

The Board of Directors of Associated Gas and Electric Company, at a meeting held May 25, 1925, declared the regular quarterly dividend of 87 1/2 cents per share on its Original Series Preferred Stock, and the second installment of the extra dividend of 50 cents per share for the year 1925 amounting to 1834 cents will also be paid with the regular dividend—81.00 in all, payable July 1, 1925, to stockholders of record at the close of business June 10, 1925.

As an alternative this dividend was made payable in Class A Stock at the rate of one twenty-fifth of one share of Class A Stock for each share of Original Series Preferred Stock held. On the basis of the present market value of the Class A Stock, the stock dividend is equivalent to approximately \$1.32 per share per quarter or \$5.28 per share per annum.

Stockholders may obtain payment in stock at the rate above stated by request delivered to the Seaboard National Bank, 115 Broadway, New York City, prior to June 20, 1925.

Stockholders may, upon order delivered to the Seaboard National Bank, purchase sufficient additional scrip to complete a full share, at the rate of \$1.00 per full share above, or sell their scrip at the rate of \$1.00 per full share below, the last sale price of Class A Stock on the day preceding the receipt of such order.

The Best Time to Invest

THE man who invests for income buys bonds when he has the money available, thus keeping all of his funds constantly employed. He knows that markets, even for high grade securities, do change, but he realizes, too, that the chances for a speculative profit through waiting for "a better market" are about equal to the chances for loss through the same process, and that averaged out over a long period, he will be money ahead by disregarding minor fluctuations and looking first to income.

Without making any definite prediction as to the future trend of bond prices, it is quite safe to say that investors who are holding off now in the hope of buying at substantially lower prices within a reasonable time are making a mistake. Interest yields are not as high today as they were during the abnormal period from which we have recently emerged, but they are considerably higher than the averages for many long periods of time.

We particularly recommend the following issues for the investment of your July funds. These bonds have been purchased by us after thorough investigation and are offered subject to prior sale and change in price:

THE NORTHERN TRUST COMPANY, CHICAGO, Trustee

The following information has been obtained from official sources:

The Western United Corporation, an Illinois Corporation, owns all the common stock, except director's qualifying shares, of the Western United Gas and Electric Company, Coal Products Manufacturing Company, Southern Illinois Gas Company, Aurora Elgin and Fox River Electric Company, Mid-Egypt Gas and Oil Company, and three companies having coal properties in West Virginia and Illinois. The Corporation also owns all the bonds of the Coal Products Manufacturing Company, the Southern Illinois Gas Company and the Aurora Elgin and Fox River Electric Company, and \$799,900 of the Western United Gas and Electric Company, 6% and 7% Preferred Stock.

Electric Company, and \$799,900 of the Western United Gas and Electric Company, 6% and 7% Preferred Stock.

The Western United Corporation, through its subsidiaries, develops and distributes gas and electric power and light from modern central stations to a combined population of approximately 350,000 through more than 100,000 connected meters, supplying gas in all, electric light and power in thirteen, and water in one of 78 cities and towns in Cook, DuPage, DeKalb, Kane, Kendall, McHenry, Will, Franklin, Jackson, Williamson and Perry Counties, including the cities of Aurora, Batavia, Elgin, Geneva, Woodstock, Joliet, St. Charles, Wheaton, Elmhurst, La Grange, Hinsdale, Naperville, Murphysboro, West Frankfort, Carbondale, DuQuoin and Marion. The Corporation, through a subsidiary, operates the street railway lines in Aurora and Elgin and 36 miles of interurban railway, connecting these two cities with 8 other cities and towns in the territory otherwise served by the Corporation. The gas business of the Corporation was established in 1859, and its electric business in 1882. The major part of the territory served is within a radius of forty miles of Chicago and is noted for its industrial activity and rapidly growing population.

CONSOLIDATED EARNINGS

The combined earnings of the Western United Corporation and its subsidiary companies for the twelve month ending April 30, 1925, not including inter-Company transactions, are as follows: Operating Expenses, Maintenance, Taxes and Depreciation...

Net earnings for the twelve months ending April 30, 1925, as shown above, were equivalent to more than 4.90 times the annual interest requirements on all outstanding funded debt of the Western United Corporation, including this issue of notes.

These Collateral Gold Notes are a direct obligation of the Western United Corporation and are secured by deposit with the Trustee of an equal par amount of Coale Products Manufacturing Company 6% Gold Debentures, due June 1, 1930. The 6% Gold Debentures deposited as security for this issue are guaranteed, principal and interest, by endorsement, by the Western United Gas and Electric Company, which is a subsidiary of the Western United Corporation and one of the foremost public service organizations in the country. The guarantee by the Western United Gas and Electric Company has been authorized by the Illinois Commerce Commission.

The operating statement of the Coal Products Manufacturing Company for the year ending April 30, 1925, shows net earnings after operating expenses, including maintenance and taxes, of \$572,646.33, equivalent to 6.36 times the annual interest on \$1,500,000 6% Debentures deposited as collateral to this issue of notes.

A part of the funds provided by this financing will be used for the retirement of \$959,700 Coal Products Manufacturing Company 7% Debentures, to be called for payment August 1, 1925.

The properties of the Corporation are operated under contract by Stone and Webster, Incorporated. Executive control of the Corporation and its subsidiaries is under Mr. Ira C. Copley, President, who for over 36 years has

\$15,000,000 City of Berlin

Twenty-five Year 61/2% Sinking Fund Gold Bonds Municipal External Loan of 1925

Dated April 1, 1925

Due April 1, 1950

Interest payable April 1 and October 1. Principal and interest payable in New York City, in United States Gold Coin of, or equal to, the present standard of weight and fineness, free from all past, present or future taxes of the German Republic, or of any State, Municipality or other taxing authority therein, at the office of SPEYER & CO., Fiscal Agents for the Loan. Coupon Bonds in denominations of \$1,000 and \$500, registerable as to principal,

Annual Cumulative Sinking Fund, sufficient to redeem the entire issue at or before maturity, to be applied to redemption of Bonds by purchase in the market at or below par and accrued interest, or, if not so obtainable, through drawings by lot at par. Not subject to redemption before April 1, 1930, except for Sinking Fund. Redeemable at par, as a whole or in part, on that date or on any interest date thereafter, at the option of the City, upon not less than six months' previous notice.

Dr. Ernst Karding, Treasurer of the City of Berlin, has furnished us the following statement: The total authorized issue of these Bonds is limited to \$15,000,000. The Bonds are issued with the approval of the German and Prussian Governments and will be the direct obligation of the City of Berlin which covenants that, if in the future it shall issue any loan secured by a lien on any of its revenues or assets, these Bonds shall be secured equally

and ratably with such loan.

The City of Berlin, the capital of the German Republic, with a population of about 4,000,000, is the third largest city of the world. The value of real estate, including buildings, and of industrial and commercial enterprises assessed in Berlin as of December 31, 1924, amounted to about \$2,100,000,000 and the taxable income of the inhabitants for the year 1924 amounted to about \$915,000,000.

The City owns valuable real estate, municipal buildings and productive enterprises, including water supply, gas and electric light and power plants, street railways and rapid transit lines, markets, stockyards, etc., the value of which is conservatively estimated at more than \$350,000,000. The revenues of the City for the fiscal year ended March 31, 1925, were about \$107,654,000 and the expenditures were about \$105,650,000 for the same

The proceeds of this Loan will be used for additions and betterments to the City's electric light and power plants and for the extension of its rapid transit subway system.

These \$15,000,000 Bonds and other obligations amounting to about \$200,000 will be the only external debt of the City, provision having been made for payment of the \$3,000,000 One-Year 7% External Gold Loan, due November 15, 1925. The amount of the internal debt of the City other than 100,000 Gold Marks outstanding (out of an authorized issue of 20,000,000 Gold Marks Internal Loan 6% Bonds) cannot be determined, until final action is taken by Government authority in regard to the terms of revaluation of municipal obligations heretofore incurred; while no statement can be made at present as to the outcome of legislation now pending, it is not anticipated that the maximum requirements for payment of interest upon and for the amortization (within a period of twenty years) of such obligations, as revalued, will exceed \$4,300,000 per annum.

Under the Dawes Plan, which is now in successful operation.

Under the Dawes Plan, which is now in successful operation, to assure reparation payments under the Versailles Treaty (Article 248), it has been arranged to impose charges on municipally owned works similar to those on private industrial undertakings. Payments by Berlin's municipally owned utilities for this purpose are estimated at not to exceed \$475,000 for the twelve months beginning September 1, 1925 (the first period for which such payments are required), \$950,000 for the succeeding twelve months, and a maximum amount of \$1,150,000 per annum thereafter.

All conversions from German to United States currency have been made at 4.20 Gold Marks to the Dollar.

Application will be made to list these Bonds on the New York Stock Exchange.

All proceedings in connection with the issuance of the above Bonds are subject to the approval of our counsel, Messrs. Cadwalader, Wickersham & Taft.

We offer the above Bonds for subscription, when, as and if issued and received by us, at 89% and accrued interest, to yield about 71/2%

Subscription lists will be opened at the office of Speyer & Co. at 10 o'clock A. M., Thursday, July 2, 1925, and will be closed in our discretion. We reserve the right to reject any application and to allot a smaller amount than applied for. Amounts due on allotment will be payable at the office of Speyer & Co., 24-26 Pine Street, in New York funds on or about July 20, 1925, as called for, against delivery of Interim Receipts exchangeable for Definitive Bonds when ready.

In a letter to us, Mr. F. J. Arend, President of the Company, summarizes as follows:

Business: Organized in New Jersey in 1885, the Company is the largest manufacturer of cream separators and other centrifugal machinery in the United States and Canada, producing approximately 35% of all such machines sold in the two countries. Manufacturing plants are located at Poughkeepsie, N. Y., and Peterboro, Ontario.

Purpose of Issue: The proceeds from the sale of these Notes will be used by the Company to redeem its \$2,100,000 Ten-year 8% Sinking Fund Gold Notes now outstanding and due March 1, 1931, all of which will be retired or redeemed by September 1, 1925, and for other

Security: These Notes will constitute the sole funded debt of the Company. Applying the occeeds from the sale of these 6% Notes to the Consolidated Balance Sheet as of December 31, 1924, of the Company and its subsidiaries, and eliminating therefrom at the current redemption price the Ten-year Eight Per Cent Sinking Fund Gold Notes, net tangible assets would amount to more than \$10,700,000 or over 41/4 times this issue, and net current assets to more than \$8,200,000 more than 31/4 times.

Earnings: Net earnings of the Company and its subsidiaries available for interest and taxes for the ten years ended December 31, 1924, have averaged \$1,137,692 per annum, or more than 71/2 times the interest requirements on these 6% Notes. Such net earnings for the six months ending June 30, 1925, are estimated at approximately \$500,000.

Restrictions: While any of these Notes are outstanding:

Pennsylvania 4-Mills Tax, Connecticut 4-Mills Tax, Maryland 4½-Mills Tax and Massachusetts 6% Income Tax refunded upon application as provided in the mortgage. Authorized and to be issued \$3,000,000. Central Union Trust Company of New York, Trustee. Dated July 1, 1925

A Sinking Fund sufficient to retire the entire issue by maturity will be provided for.

The following information is contained in a letter from Walter J. Salmon, Esq., President of the Bryant Park Building, Inc.:

Bryant Park Building, Inc., owns the leasehold on property at the northeast corner of 42d Street and Sixth Avenue, New York City, comprising over 20,800 square feet of land and the six-story office building thereon, known as the Bryant Park Building, with a frontage of approximately 208 feet on 42d Street and 100 feet on Sixth Avenue. It is proposed to enlarge the building to 15 stories by the construction of an additional nine stories and to make incidental changes in the existing building, thereby practically doubling its present rentable area.

The permanent importance and value of this site, fronting on the block occupied by Bryant Park and the New York Public Library, is firmly established by its location on 42d Street, the principal thoroughfare between two of New York's chief subway traffic centers, Times Square being two blocks to the west and Grand Central Terminal three blocks to the east, as well as by the intensive development of the surrounding district as the most important shopping, theatrical and uptown business center of the entire city.

SECURITY

This issue of bonds will be secured by a closed first mortgage lien on the leasehold, subject only to a sub-lease expiring April 30, 1926, on a portion of the building. The proceeds of these bonds to the amount of \$1,450,000, estimated by Dwight P. Robinson & Co., Inc., to be sufficient to cover the entire cost of the proposed improvements, will be deposited with the Trustee to be released from time to time against the cost of such improvements upon certificates of supervising architects and under suitable guarantees of completion. Any unexpended balance will revert to the company. Construction is to be commenced not later than May 30, 1926; otherwise the funds on deposit with the Trustee will be applied to the retirement of a like principal amount of bonds. The value of the leasehold has been appraised by Messrs. Geo. R. Read & Co. at \$4,650,000 upon the enlargement of the building to 15 stories, and at \$2,650,000 without giving effect to such improvements. Bonds of this issue, after giving effect to the application of cash deposited with the Trustee for completion of the proposed improvements or in reduction of the loan, will therefore not be outstanding in amount in excess of 65% of the appraised value of the

EARNINGS

Annual net income of the existing building available for interest charges (after giving effect to an allowance of 3% of gross rental income for management), as audited by independent certified public accountants, for the three years and three months ended March 31, 1925 has been as follows:

> \$321,185.59 \$305,642.68 \$314,221.07 \$76,274.84

Such net income from the present building, without giving effect to the approximate doubling of the rentable area and other improvements proposed, has been at the average annual rate of \$313,022.00 or more than 11/2 times the maximum interest requirements of this issue. Vacancies have been less than 10% in each of such years and in 1924

The net income of the building upon completion of the proposed improvements, available for interest requirements of these bonds, after all operating charges including an allowance of 7½% for vacancies, has been estimated by Messrs. Geo. R. Read & Co. at over \$533,000 per annum, or more than 2.7 times maximum annual interest requirements of these bonds, and substantially in excess of combined maximum annual interest and sinking fund requirements.

We offer these bonds for delivery when, as and if issued and received by us, subject to approval of all legal matters by our counsal. It is expected that delivery in the form of interim receipts of Dillon, Read & Co. or temporary bonds will be made on or about July 15, 1925.

Mark D. Strong Building Corporation

First Mortgage Ten Year 61/2% Sinking Fund Gold Bonds

Dated June 1, 1925

Due June 1, 1935

Phone

THE NATIONAL BANK OF THE REPUBLIC OF CHICAGO, TRUSTEE

Mr. Mark D. Strong, President of Mark D. Strong Building Corporation has furnished the following information:

LOCATION: The properties of Mark D. Strong Building Corporation have a frontage of the entire block on Belmont Avenue, between Kenosha and Tripp Avenues, in a very rapidly growing industrial section of the northwestern part of the city. Located in the neighborhood are such plants and warehouses as those of Lyon & Healy, W. F. Hall Printing Company, Florsheim Shoe Company, Stewart Manufacturing Company, Birtman Electric Company, Ilg Electric Ventilator Company, Illinois Glass Company and many others. Transportation is furnished by surface lines on Belmont, Crawford, and Milwaukee Avenues.

SECURITY: These bonds will be, in the opinion of counsel, a first mortgage on the land and buildings owned by Mark D. Strong Building Corporation, subject to a certain lease to the All-American Radio Corporation. The land fronts 242 feet on Belmont Avenue by 371 feet deep. It is improved with a one and two story building occupying an over-all area of 209 feet on Belmont Avenue by 283 feet deep and having a fine quality of face brick on three sides, a heavy concrete foundation throughout, is steam heated, and has two freight elevators. The basement and one-story sections are strictly fireproof, while the second story section is protected by a

The plant was built in 1922 by the R. C. Wieboldt Construction Company, is especially well planned and suited to its purpose and location and of unusual structural integrity. The properties have been appraised as of April 30, 1925, by Coats & Burchard Company of Chicago, as having a repro-duction value of \$505,000 and a net sound value of over \$489,000, this mortgage thus being in the ratio of only about 56% of such sound value. The owners are under contract to connect the property by switch-track with the C. M & St. P. Ry., which will add considerably to its appraised value.

SINKING FUND: The building is under lease for a period of ten years from June 1, 1925, at a net annual rental of \$30,000, payable monthly in advance to the Trustee and approximately \$27,500 annually of this amount will be made available to the payment of, first, the interest and, secondly, purchase or call of bonds up to the call price of 102.

TITLE GUARANTY AND INSURANCE: The Guaranty Policy of the Chicago Title & Trust Company in the sum of \$275,000 will be deposited with the Trustee. The borrower covenants to assign to the Trustee as additional security for these bonds insurance on the life of Mark D. Strong in the sum of \$50,000, and to deposit with the Trustee fire insurance in an adequate amount on the building and surance in an adequate amount on the building and also Rental Value insurance.

OUR RECOMMENDATION: We recommend these bonds as a conservative investment on property in a rapidly growing district where land values are increasing constantly and switch-track property is actively in demand. We believe that the purchasers of these bonds will be well protected by the wide margin of security in land and buildings, the guaranty of the owners, the assignment of the lease on the building, the protection of the Guaranty Policies as to title, the life insurance and fire insurance, as well as the Rental Value insurance.
